# ADVAMELT 120

---

## **Description**

Advamelt 120 is a Bookbinding Side Glue Hot Melt Adhesive which is light in colour with pressure sensitive properties and a long open time. It bonds many difficult surfaces and many different lacquers.

Advamelt 120 offers the user excellent adhesion and thermal stability, as well as heat resistance.

## **Typical Properties**

Adhesive Type	Synthetic polymer based hot melt
Viscosity	1200 - 1400 cps @ 175 °C
Softening Point	100 °C
Speed of Set	Medium/Fast
Colour	Light colour

## **Method of Application**

Suggested application temperature is 160 °C to 180 °C depending upon substrates to be bonded.

Advamelt 120 can be applied by well known standard application binders such as those from Muller Martini, Kolbus, Wholenberg, Harris etc.

## **Clean Up:**

Please consult your Hot Melt Equipment Manufacturers.

## **Physical Form:**

Pillows & Granules

## **Safety & Disposal**

Refer to MSDS.

## **Storage**

Product should be stored in dry environment, not exposed to extreme temperatures and covered to avoid any contamination. Use oldest stock first.

All information is based on results gained from experience and tests therefore believed to be accurate but is given without acceptance of liability for loss or damage attributable to reliance thereon as the required performance, production techniques and substrates used can vary significantly. Therefore it is imperative that a full evaluation is undertaken to confirm the suitability of the product before commercial production.
