

ADVABOND SC CLEANER

Description

ADVABOND SC CLEANER is a special blend of solvents designed for use with the ADVABOND SC ADHESIVE range of products. It will remove adhesive overspray (whilst still wet) and will clean brushes and spray equipment used during adhesive application (whilst the adhesive is still wet). It can also be used to clean metal of oily residue, dirt and grease prior to bonding.

Typical Properties

Appearance

Thin clear liquid

Application Information

Adhesive residues should be removed whilst still wet. Use in only well-ventilated areas. Read Material Safety Data Sheet (MSDS) before using this product.

Limitations

ADVABOND SC CLEANER is unsuitable for use on polystyrene.

Safety & Disposal

This material is classified as HAZARDOUS.

Avoid contact with skin and eyes and avoid breathing vapour. Wear gloves, overalls and safety glasses or goggles.

Refer to the Material Safety Data Sheet (MSDS) before handling or using this product.

Storage

The product must be stored in accordance with relevant Dangerous Goods (Class 3) requirements. Product should be stored in its original container in a cool, well-ventilated place; out of direct sunlight between 5°C and 25°C. Keep away from sources of ignition. No Smoking.

Rotate stock using oldest batches first. Close containers air tight after use.

All information is based on results gained from experience and tests therefore believed to be accurate but is given without acceptance of liability for loss or damage attributable to reliance thereon as the required performance, production techniques and substrates used can vary significantly. Therefore it is imperative that a full evaluation is undertaken to confirm the suitability of the product before commercial production.
