

Protective Packaging Materials Manufacturer

AIR BUBBLE CUSHION

Polycell's range of Air Bubble products are made from a carefully formulated blend of virgin low density and linear low density resins along with various additives for performance purposes. Polycell's standard Air Bubble range consists of 3 bubble profiles as indicated in the following table. Each individual profile is characterized by diameter and height of bubble.

Bubble Diameter	Bubble Height
10mm	4.2mm
20mm	6.0mm
32mm	12.5mm

Our Air bubble range is also available in varying thicknesses (micron) of plastic. The thicker to the micron, the stronger the bubble. Due to such a wide range of packaging requirements, we also offer a variety of bubble grades to ultimately give our customers a greater choice for their packaging needs.

INDUSTRIAL ROLLS

Are all produced at 1500mm wide and come in varying lengths starting from 100m. All industrial rolls are able to be slit & perforated to customer requirements.

BUBBLE BAGS, SHEETS & TUBING

Bubble bags, Bubble sheets and Bubble tubing are a convenient and economical packaging solution for high volume uniform sized products.

RETAIL/OFFICE ROLLS

Available in a variety of widths and come in roll lengths of up to 50m.

ANTISTATIC

Produced using an additive in the resin that eliminates electrostatic discharges that are inherent in plastic cushioning materials.

ALL OUR STANDARD GRADES OF BUBBLE ARE 100% RECYCLABLE

POLYETHYLENE FOAM

Polycell's range of closed cell non-crosslinked Polyfoam products are produced using low density Polyethylene resins with HCFC & CFC free gases. Along with being a lightweight material, Polyfoam is also non-abrasive and chemically inert, water resistant and environmentally 100% recyclable.

Polyfoams soft texture makes it the ideal packaging solution for highly polished surfaces as well as providing cushioning against shock for fragile items. Polyfoam comes in a variety of thickness giving customers a greater choice for their packaging requirements as the following table indicates.

Standard Roll WIDTH	Standard Roll THICKNESS	Standard Roll LENGTH
1.2m	0.5mm	500m
1.2m & 1.5m	1mm	100m, 300m, 500m
1.2m & 1.5m	2mm	100m, 150m, 250m
1.2m	4mm	100m
1.2m	6mm	70m
1.2m	8mm	50m
1.2m	10mm	45m
1.2m	12mm	40m

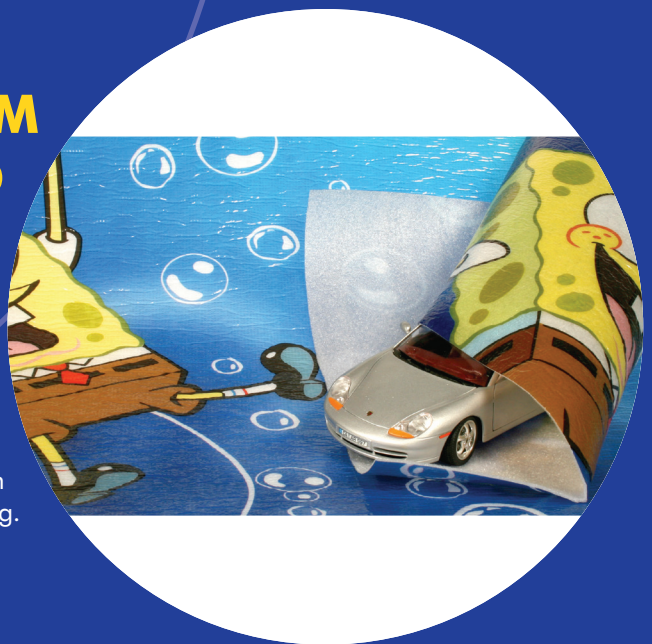

Polyfoam is able to be slit and perforated to individual custom requirements and converted into bags and sheets.

CUSTOM PRINTED ROLLS

With our in-house printing facility we are able to offer medium to high volume users of Polyfoam the option of custom printing.
