Jiffy® Protective Mailers

Market Leadership

Sealed Air's market leadership has been firmly established through the development of innovative and differentiated mailing bag products. From the unique construction that ensures the safe passage of your products, to the wide variety of bag types, there is a Sealed Air mailing product to suit almost every application.

Environmental Commitment

Sealed Air is committed to a course of action that ensures the following initiatives:

1. **Source Reduction**- Through differentiated products, manufacturing efficiencies and packaging design, less material is used than competitive packaging products. This means less waste.
2. **Re-usability** Wherever possible, Sealed Air products are designed for re-use.
3. **Recycling**- Wherever possible, Sealed Air incorporates recycled material in the manufacture of its mailing bag products. Most products are designed to be recycled rather than going into the waste stream.

Jiffy® Mailers... A Cost-Efficient Alternative to Corrugated Cartons.

Discover the advantages of Jiffy® Brand, the first name in protective mailers.

Reduce Postage Costs... Lightweight Jiffy Mailer® Products are less expensive to mail than heavier corrugated cartons, especially if void fill materials are used.

Reduce Labour Costs... Jiffy Mailer® Products require fewer packing steps and eliminate the need for filler material and carton setup.

Reduce Inventory Requirements... Jiffy Mailer® Products store flat and do not need extra void fill and cushioning minimizing material costs and valuable warehouse space.

Increase Customer Satisfaction... Jiffy Mailer® Products provide superior protection with no waste, no mess or lost items. Their premium appearance enhances corporate image.
